## Ultra-Sensitive E-Skin

89 exclusive patented technologies allows FlashBot to sensitively detect the surroundings and take the elevator safely and orderly with other passengers.

## AI Voice Interaction

Smart robot control is possible with a variety of voice commands. Operation is now easier than ever.

## One-Tap Call

"FlashBot is at your service with a single tap."

## Upgraded Auto-Level Suspension

The upgraded six-wheel independent suspension helps FlashBot navigate obstacles smoothly in any environment.

## Modular Adjustable Compartment

The multi-functional compartment maximizes space utilization, enabling FlashBot to perform multiple tasks with a single tap

## Auto Building Delivery Service

Automatic, contactless delivery of customer-ordered items and takeaways across floors offers greater peace of mind.

## Auto Elevator Taking

Powered by IoT technology, FlashBot calls and takes the elevator automatically for delivery across floors.

## Greeting and Escorting

Check-in guidance is provided based on optimal path planning and voice announcements.
